

 TRANSITION 2021

## THINKING ABOUT NEWSOME?

INFORMATION FOR PROSPECTIVE STUDENTS & PARENTS

### Dear Prospective Parents, Carers and Students

After a challenging year and Y6 period, it has approached the time of year when you are thinking about the secondary school for your child. This letter gives information about the 'Newsome Offer' and what our awesome school is like.

- Due to the local and national restrictions this year, our approach has had to change. With this in mind, we have created a dedicated Transition section on our website which includes a variety of informative videos and information to give you a flavour of the great offer we have. Please visit our website and click on the transition image on the homepage. Alternatively, you can select the Transition link on the 'parents' drop-down menu at the top of the website page.

In addition to the links below, we are also accepting visits by appointment which will take place throughout October, in small, socially distanced groups. This will be organised in the form of a session. If you would like to receive more information and book an appointment, please email us directly using the transition email link at the bottom of this page. We ask that only one parent per household attends, this will enable us to allow more parents to visit.

## SCHOOL TOURS

If you are unable to attend any of these sessions, please get in touch and we can try to accommodate another date after the school day.
